

“APPy Tyme” Workshop Prerequisites

For Attendees Planning to Attend the iPad Workshop **Sunday, 8:30am – 11am, La Salle A/B**

It is our goal to provide a meaningful APP experience for you and to prepare you to use your iPad at home. To truly benefit from the workshop, we ask that attendees bring their personal, **FULLY Charged** iPad with the **latest Operating System** (iOS 5 or higher available online free from Apple) installed to the session and to download **Sonic Pic** (APP available on iTunes APP store) **prior to the workshop**.

We ask that attendees:

- Be familiar with BASIC iPad operations such as ...
 - opening and closing APPs
 - downloading APPs
 - locating APPs on their iPad
 - basic touch screen operations.
- Have an iTunes account and purchase/download **Sonic Pic**. This APP will be used during the Hands On segment of the workshop.

We will have a representative available on Saturday, June 23, from 9am – 11am, in the Exhibitor arena, Le Salon, 3rd Floor, for questions regarding the session or required prerequisites.

If you don't own an iPad and want to attend, please join us. We will try to provide a few “loaner” iPads and, of course, other attendees will be encouraged to let you look on theirs!
