

Hi! My name is

[insert name]

insert photo

and I am [age].

[example] I am one cute girl, just one of thousands that has Rett syndrome (RTT), a non-hereditary genetic neurologic disorder. I was fine at birth, but by 8 months of age, RTT started to affect almost everything I do: talk, use my hands, swallow. But my bright eyes see more than you may think, and I can hear just fine. I am smart and I understand everything you say. My parents are dedicated to raising awareness about my syndrome and would appreciate your support.

Your Help is MY Hope
