

Research & Treatment News

The IRSFlash is an electronic newsletter with the latest research news, abstracts from new Rett publications, treatment and drug information, scientific meetings and fundraising events.

This page serves as an archive for past and current research content distributed by the IRSF Research staff personnel.

If you are not yet registered to receive our monthly IRSFlashes and would like to, [click here](#) to join and create an IRSF account. IRSF will not share your contact information.

For any research related questions or for more information please contact Janice Ascano.
